INTERFERENCE SEARCHED			
Class	Sub.	Date	Exmr.

The image is a vertical, high-contrast, black and white scan. The left portion of the image shows a heavily textured, light-colored surface, possibly a piece of aged paper or a metallic strip, with numerous small dark specks and fibers visible. This surface runs vertically from top to bottom. To the right of this textured strip is a large, solid black area. In the center-right of this black area, there is a small, dark, irregular shape that appears to be a hole or a deep shadow, possibly a fastener or a mark on the original document. The overall appearance is that of a very poor quality scan of a physical object, with extreme contrast and significant noise.
